

1 What is 3-D Design?

- It is an art class
- It is a core high school subject
- It is a studio based class
- It is a course that is graded and fulfills your fine arts requirement

2 What do you do in 3-D Design?

- Create works of art using Clay, Metal, and a whole variety of other materials
- Learn to use the elements of art and the principals of design to guide your decisions when creating art
- Develop a solid foundation in art history, and art criticism
- Learn information based on the California Visual Arts Frameworks
-

3 What do I need to succeed?

- To be in the classroom ready to work when the tardy bell rings
- Come to class prepared
- Be respectful of others
- Complete all assignments on time
- Clean up after yourself

4 What do I really need to know?

- Come to class on time.
- Do not eat in my class, the dirt and metal residues will make your food very nasty
- Come to class, after 10 absences you will not get credit
- Treat the equipment and people in the classroom with respect.

5 How does this class work?

- The first semester we will concentrate on using ceramics
- The second semester we will move to another classroom and concentrate on metals
- 20% of class time will be dedicated to Art History, Art Theory, and Design Theory

6 How Will I be Graded?

- 10% of your grade is based on quizzes and worksheets
- 70% of your grade is based on the projects you will complete
- 10% of your grade is based on participation
- 10% of your grade based on the final exam

7 What is Participation?

- Participation is your willingness to participate in maintaining the classroom and your respect for our studio and everyone in it.
- We all clean up after ourselves or our grades will suffer
- Your ability to come to class on time is a component of participation
- Participation is determined every 6-week grading period

8 Does this class SUCK?

- You need to work in this class to get a good grade
- You very well may get dirty (clay is made of dirt and water)
- You will create a lot of cool art work in this class, will have a lot of fun, and will learn a lot.
